- 八、申請資料將由研究組內部初審後送到學術委員會審核。
- 九、獲獎人需於本中心作與得獎相關研究主題之演講。
- 十、獲獎人以獲頒一次為限。

Eligibility & Rules (An English translation of the above official document):

1. Students who are related to the NCTS Physics Division, whose papers were submitted to the international scientific journals while they were in school and have been published at the time of making an application for the Award, are eligible to apply.
2. The paper should be relevant to the research topics of the NCTS-Physics Thematic Groups (TGs).
3. The publication dates of the papers must be between January 1 and December 31 of the previous year.
4. Total Number of Winners: At most 12 winners may be awarded each year. Each TG may recommend at most one student in principle. If a TG recommends 2 students or more, the program committee will decide according to the application situation. It can be no recipient of the award.
5. Award: Each winner will be awarded NT\$20,000 and a certificate.
6. Application Period: The application time will be announced in the first half of each year.
7. Application Materials: Application form, the theoretical paper, and a letter of recommendation.
8. Application materials will be first reviewed by the NCTS TGs and then sent to the NCTS Program Committee (PC) for a final review.
9. Winner(s) shall give a presentation on the paper and relevant research at the NCTS.
10. One student can receive the award once only.
